Klaes time management

Digital time recording - legally compliant, flexible and intuitive

Recording employee times has never been so easy. With Klaes time management you can record all relevant times of your employees, process them automatically and evaluate them. The innovative web solution covers the entire range of time recording needs. In addition to the „coming and going times“, you can also record your order-related times with Klaes time management. You have the flexibility to book mobile and stationary times - via smartphone, tablet, PC, scanner and terminal.

Holiday planning is also child's play with Klaes time management. Applications are requested paperlessly and approved with a click. Sickness notifications are recorded digitally and the data for payroll accounting is transferred at the touch of a button. Numerous other functions make the software an all-round tool for personnel time recording. No more paperwork - instead, a modern browser-based web application with which you can quickly find your way around.
