

openTRANS

The openTRANS Workflow

Your advantages at a glance

- 1 The offer**
Enter your windows, doors, conservatories, roofings or general accessories as usual in the KlaesSoftware.
- 2 The order**
Determine your materials of one or more orders in the twinkling of an eye and order them easily online (via openTRANS) from your suppliers.
- 3 Suppliers**
Receive an electronic order confirmation, delivery bill and delivery date upon request and availability of your supplier.
- 4 Delivery**
If your order is "green", delivery can be made. Quantity of materials and delivery date are matching.

-  Accelerated order processing
-  Reduction of process costs
-  Reduction of "order errors"
-  Simple setup

Determine your material requirements with just a few clicks and order online. A "traffic light system" gives you a quick overview of your order status. Green - the goods are in stock and can be delivered on time. Yellow - the goods have not yet been confirmed. Red - there are still discrepancies regarding quantity or delivery date.
